

**VOICE YOUR PROTEST!**

**Stop Limiting our  
Territory Freedoms!  
Say NO to  
Southern Standards**

**Fatigue, not speed, is the leading cause of car crashes proven by Mercedes Benz & backed by The American National Highway Traffic Safety Administration.** Speed restrictions just keep Territorians driving into the night when they are most likely to succumb to micro sleeps or collide with animals.

**“It has been shown that excessive speed is not a dominant factor in the Territory's road toll.** Rather, it is a combination of alcohol and a failure to wear passenger restraints that is the root cause of most fatalities on Territory roads”. November 2004 Dr Chris Burns, the then Labor Minister for Infrastructure and Transport was quoted as saying.

**No evidence exists that speeding was ever a problem on NT open roads.**

**It takes twice as long now to pass road trains. Often there are 20 cars banked up at a time it's just so dangerous. Now there are moves to enforce a 100kmh limit, further compounding the problem.**

**Police diverted from priority areas to TAX large expanses of open roads. In 2007 the Labor Government grabbed an extra \$1million in fines!**

**It is so easy now to lose your licence and perhaps your job for no valid reason. Federal law allows a 10% variance in your speed odometer yet in Vic you can get huge fines for just being 2kmph over the limit.**
